Girls U9B v Swanbourne

Result: 1-1 draw

As there were lots of other netball matches taking place on the netball courts we played our final match of the season on the ball park. The U9As went first which meant that the U9Bs had a chance to see what they were up against. It would be fair to say that we knew when it was time for our match we would be up against some stiff competition.

We won the toss and opted to choose which way to shoot so Swanbourne took the first centre pass. Swanbourne proved to be as swift as we were with the ball and eventually they scored the first goal. The U9Bs really had to fight to get the ball down to the opposition's goal, but we did manage to equalise by half time. Half time score was 1-1.

In the second half we tried to mark even tighter with the defence really working hard to keep Swanbourne out of our end. All the defenders should be commended for their excellent play throughout the match. Although Swanbourne did create a few more chances to score they did not manage to convert any of their attempts.

Final score: 1-1 draw.
